- ◆ Securely bagging used gloves, masks, tissues, wipes and similar items before placing in your **garbage** cart or bin.
- ◆ Making sure your garbage and recycling carts/bins are not overloaded and lids are fully closed.
- ◆ Contacting us if you need additional service.

Remember that Recycling is Required

State legislation requires that businesses and multi-family properties implement and maintain programs to keep recyclables and organics out of landfills. Please visit www.CalRecycle.ca.gov for information on applicable legislation including but not limited to Assembly Bills 341 and 1826, and Senate Bill 1383.

Should there be any changes to our services or policies, information will be posted on our website and Facebook page  (@ssfscavenger).

Sort Smart

Sorting your trash is easy and important. Please take the time to make sure your staff or tenants know how to sort correctly and understand they are required to do their part.

All collection carts, bins, roll-off boxes, and compactors should be clearly labeled to indicate what belongs inside. Printer-friendly copies of our labels and posters are available on our website.

Don't have a collection cart or bin with one of the labels shown above?

Contact us for assistance. State and local legislation require that recyclables be separated from garbage.

Keep it clean!

Please do not contaminate recyclables. Scrape and rinse food and beverage containers before placing in the **Containers** cart or bin. Only put clean, dry paper in the **Paper** cart or bin. Keep the lids to your carts or bins closed to keep out rain and critters, and to prevent litter.
